

Environmental Management System (EMS) Policy

Environmental Policy Statement:

At Sintex Industries Limited, environmental protection is a fundamental part of our business philosophy. We are dedicated to conducting operations responsibly while preserving and enhancing the environment for future generations.

To uphold this commitment, we will:

- Operate with respect and care for the environment, integrating environmental considerations throughout the design, manufacturing, and after-sales processes to protect employees, the community, and the environment from harm.
- Establish, monitor, and review the organization's context and strategic direction to ensure environmental objectives align with business goals.
- Minimize waste, conserve energy, and promote recycling wherever feasible.
- Comply with all applicable environmental laws and regulations while striving to exceed minimum legal requirements.

To meet these goals, we will:

- Foster the active consultation and participation of employees and contractors to manage EMS performance as a core function of the business.
- Manage projects and processes to reflect our commitment to environmental sustainability.
- Measure, audit, and continually improve EMS performance.

We are committed to the continuous improvement of our environmental management processes by preventing pollution, enhancing environmental performance, and providing a safe working environment through the engagement of educated, trained, and dedicated personnel.

This policy will be communicated to all personnel working with us and will be made available to interested parties upon request.
